

## Healthy Campus Initiative – Campuswide Survey

### What is it

We are very excited with the level of involvement and participation from UCR faculty, staff and students in support of the development of the UCR Healthy Campus Initiative (HCI). As we build out our strategic plan, we want to ensure that the priorities, goals and strategies meet the needs of our campus community.

To understand the impact of HCI on health and well-being at UCR, we are conducting a three-year research study. We are asking UCR faculty, staff and students to take 15 minutes to complete the HCI survey by June 29, 2018. Participation is voluntary and all responses are anonymous.

For your time, we are offering a \$5 gift card for UCR Dining to the first 500 respondents. We are also offering to all, a chance to enter into a drawing to win 1 of 6 \$50 Barnes and Noble gift cards.

If you have any questions about this survey, please contact [healthycampus@ucr.edu](mailto:healthycampus@ucr.edu).
